Vision office

**Linea essenziale e sobria per questa gamma di poltrone confortevoli e versatili, braccioli in alluminio lucido o imbottiti in tessuto o pelle naturale.
Veste con eleganza e raffinatezza le esigenze dell'ufficio moderno e delle sale riunioni.**

An essential and sober line for this range of comfortable and versatile armchair, with polished aluminum armrests or upholstered in fabric or natural leather. It fits with elegance and sophistication in the needs of the modern office and meetings.

Per ambienti di lavoro direzionali, Vision è proposta con base in alluminio lucido, ruote cromate ed un funzionale meccanismo.

In management areas, Vision is offered with polished aluminium base, chromed castors and a multifunction mechanism.

Vision home

La naturalezza qui casca a pennello. Le finiture ed il cuscinetto impreziosiscono il Design di Vision Home rendendola ancora più morbida e piacevole alla vista e al tatto. I rivestimenti eleganti e raffinati evidenziano i dettagli del prodotto.

Naturalness falls here like a glove. The finishes and the buffer embellish the design of Vision Home and make it even softer and pleasant to the eye and touch. The elegant and refined coatings highlight the product details.

Juliette

Ispirata al design classico della metà del ventesimo secolo, Juliette offre comfort e funzionalità. Juliette è una sedia multifunzione la cui scocca può essere unita a una varietà di basi diverse fornendo ottime soluzioni per molteplici campi di utilizzo, dall'ufficio più tecnologico e prestazionale passando al contract e all'ambiente casa.

Inspired by the classic design of the mid-twentieth century, Juliette offers comfort and functionality. Juliette is a multi-purpose chair whose shell can be combined with a variety of different bases providing excellent solutions for multiple fields of use, from the most technological and performance office to the contract and home environment.

Per ambienti di lavoro direzionali, Juliette è proposta con base in alluminio lucido, ruote cromate ed un funzionale meccanismo.

In management areas Juliette is offered with polished aluminium base, chromed castors and a multifunction mechanism.

La perfetta simbiosi fra la struttura cromata e la parte rivestita evidenzia l'elegante design. Leggera nella linea ma solida nell'uso, è idonea per usi prolungati.

The perfect harmony between the chromed steelframe and the elegance of the shell. Light in design but solid construction make it ideal for heavy duty use.

Con rivestimento Secret, Extrema AU e vera pelle, non è possibile rivestire la parte posteriore della seduta.

Scegliere una combinazione da abbinare utilizzando gli altri rivestimenti disponibili.

With Secret, Extrema AU and real leather upholstery, it is not possible to cover the back of the seat.

Choose a combination to match using the other available coatings.

Bio

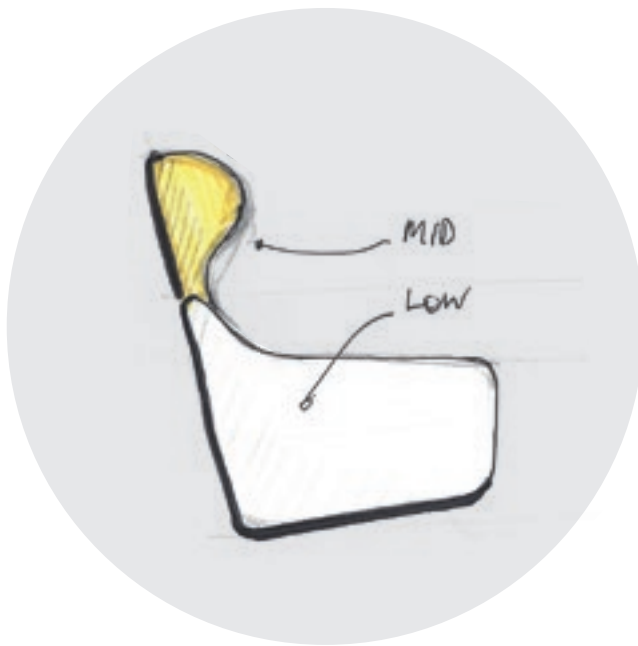

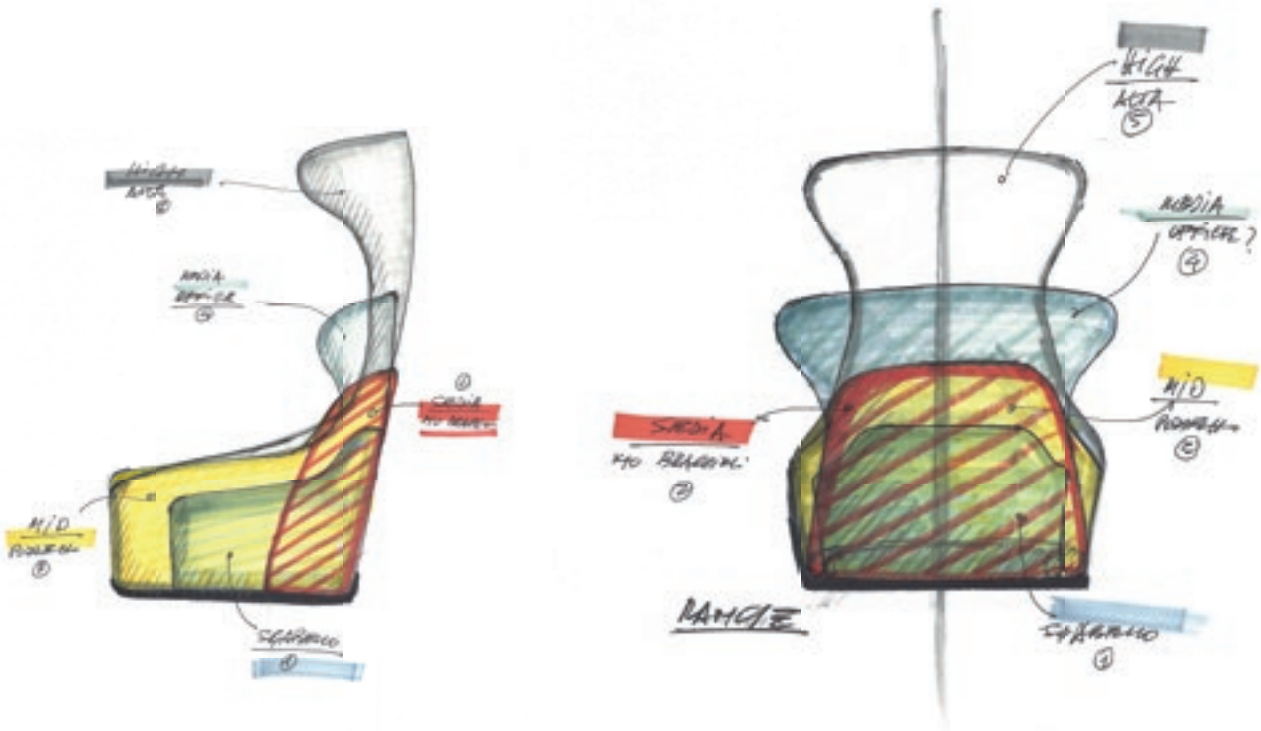

Il concetto su cui si basa il progetto BIO è quello di ridurre al massimo l'impatto ambientale sia nelle fasi di produzione che nella scomponibilità a "fine vita". Abbiamo deciso di utilizzare ABS riciclato al 100% per lo sviluppo della scocca, mentre il sedile è realizzato in legno lamellare.

La forma della poltrona è estremamente pulita e leggera, la linea avvolgente garantisce un ottimo contenimento e un comodo appoggio per le braccia. Il sottile materiale plastico della struttura accoppiato con l'imbottitura in PU, lo rendono leggermente flessibile, permettendogli di assecondare i movimenti dell'utilizzatore, migliorandone il comfort.

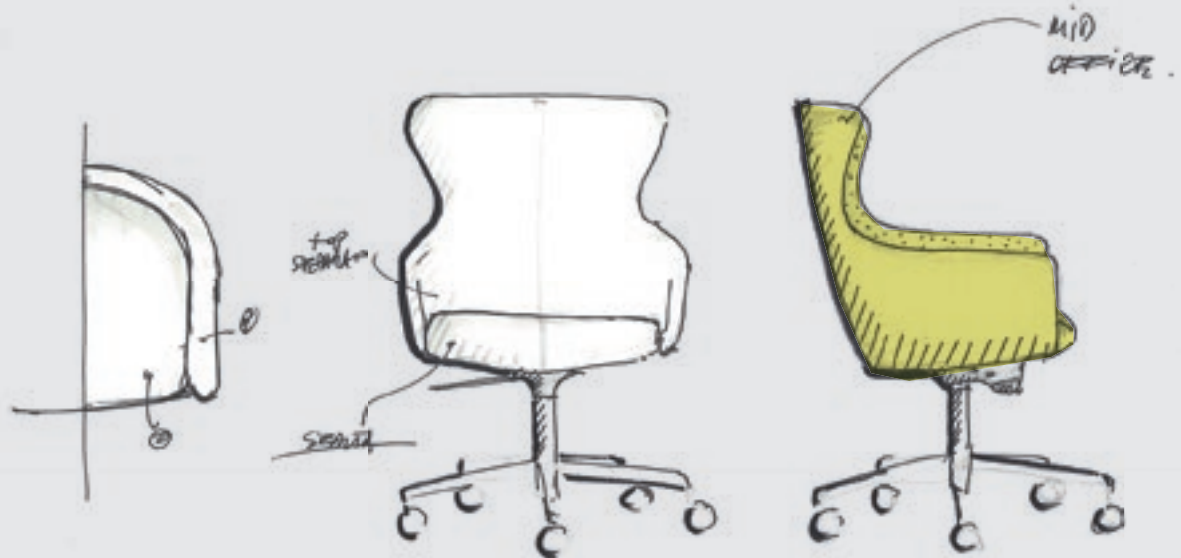

The concept on which the BIO project is based is to minimize the environmental impact both in the production phases and in the "end-of-life" decomposition. We decided to use 100% recycled ABS for the development of the shell, while the seat is made of laminated wood.

The shape of the armchair is extremely clean and light, the enveloping line guarantees excellent containment and a comfortable support for the arms. The thin plastic material of the structure coupled with the PU padding make it slightly flexible, allowing it to accommodate the user's movements, improving comfort.

New project

Bio chair

Il concetto su cui si basa il progetto BIO è quello di ridurre al massimo l'impatto ambientale sia nelle fasi di produzione che nella scomponibilità a "fine vita". Abbiamo deciso di utilizzare ABS riciclato al 100% per lo sviluppo della scocca, mentre il sedile è realizzato in multistrato di pino. La forma della sedia è estremamente pulita e leggera, la linea avvolgente garantisce un ottimo contenimento. Il sottile materiale plastico della struttura accoppiato con l'imbottitura in PU, lo rendono leggermente flessibile, permettendogli di assecondare i movimenti dell'utilizzatore, migliorandone il comfort.

The concept on which the BIO project is based is to minimize the environmental impact both in the production phases and in the "end-of-life" decomposition. We decided to use 100% recycled ABS for the development of the shell, while the seat is made of multilayer pine. The shape of the armchair is extremely clean and light, the enveloping line guarantees excellent containment. The thin plastic material of the structure coupled with the PU padding make it slightly flexible, allowing it to accommodate the user's movements, improving comfort.

Bio Stool

Lo sgabello imbottito Bio è un prodotto comodo e versatile, proposto nella versione girevole o fissa. la linea sottile e avvolgente è ottenuta attraverso lo sviluppo dello schienale in Abs stampato in 3d. Il concetto su cui si basa il progetto BIO è quello di ridurre al massimo l'impatto ambientale sia nelle fasi di produzione che nella scomponibilità a "fine vita". Abbiamo deciso di utilizzare ABS riciclato al 100% per lo sviluppo della scocca, mentre il sedile è realizzato in legno lamellare. La forma avvolgente garantisce un ottimo contenimento e un comodo appoggio per le braccia. Il sottile materiale plastico della struttura accoppiato con l'imbottitura in PU, lo rendono leggermente flessibile, permettendogli di assecondare i movimenti dell'utilizzatore, migliorandone il comfort.

The Bio padded stool is a comfortable and versatile product, proposed in the swivel or fixed version. the thin and enveloping line is obtained through the development of the backrest in 3D printed Abs. The concept on which the BIO project is based is to minimize the environmental impact both in the production phases and in the "end-of-life" decomposition. We decided to use 100% recycled ABS for the development of the shell, while the seat is made of laminated wood. The enveloping shape guarantees excellent containment and a comfortable support for the arms. The thin plastic material of the structure coupled with the PU padding make it slightly flexible, allowing it to accommodate the user's movements, improving comfort.

Cocoon

Linee semplici ed eleganti che si fondono nel profilo del bracciolo in alluminio lucido.
La forma accogliente ed i pregiati materiali risaltano il grande confort offerto.

Simple and elegant lines reflect the profile of the polished aluminum arm.
The shape and high quality of materials used define the comfort on offer.

Cocoon rispetta i più recenti studi sull'ergonomia, su tutte le versioni girevoli il movimento fra sedile e schienale è controllato da un'evoluto ed efficiente meccanismo sincronizzato. L'ampia escursione di 20° consente sia posizioni operative che di relax.

Cocoon respects all recent studies made on ergonomics, with all swivel chair models the movement of the seat and back is controlled with a new and efficient synchronised mechanism. Sufficient movement of 20 degrees allows a good working as much as a relaxing position.

Come optional può essere richiesto il logo personalizzato posto sul lato interno del bracciolo

You can also have your own logo put on the inside of the arm as an option

Bloccaggio meccanismo sincro in 5 posizioni, con sistema antishock

Lock mechanism in 5 positions, with antishock system

Regolazione in altezza tramite pompa a gas

Control height adjustment thru gas lift

Leva girevole per la regolazione individuale dell'intensità (da 40 a 120kg.)

Rotating handle to control individual intensity (from 40 kg to 120 kg)

In versione fissa si presenta con un'elegante struttura cromata le cui linee si armonizzano con quelle dello schienale. Idonea sia per ospiti che per tavoli riunione.

The fixed version comes on an elegant chromed frame whose lines harmonise with the back design of the chair. This model is ideal for meeting and board rooms.

Varia

Le poltrone per ufficio e direzionali Varia si contraddistinguono per le linee pulite e moderne. Il connubio tra materiali preziosi come l'alluminio e il rivestimento in rete traspirante, pelle o tessuto donano una visione contemporanea all'ufficio. Disponibile in 4 diverse linee di prodotto, alta, bassa e slitta, è adatta dall'ufficio direzionale alla postazione operativa più tecnica.

Varia office and executive armchairs are characterized by clean and modern lines. The combination of precious materials such as aluminum and the breathable mesh, leather or fabric covering, give a contemporary vision to the office. Available in 4 different product lines, high, low and cantilever, it is suitable from the executive office to the most technical workstation.

Varia Classic

Varia Classic nasce dall'idea di coniugare la decorazione sartoriale bicolore con materiali strutturali di schienale e braccioli, offrendo un prodotto tecnico e estetico, mantenendo i requisiti richiesti nella norma europea EN1335.

Varia Classic was born from the idea of combining the two-color sartorial decoration with structural materials of back and armrests, offering a technical and aesthetic product, maintaining the requisites required by the European standard EN1335.

Il segno distintivo di Varia Classic è la decorazione sullo schienale, uno schema decorativo che esalta le qualità di tappezzeria della poltrona unendo sapientemente materiali differenti per creare un decoro strutturale.

The distinctive feature of Varia Classic is the decoration on the backrest, a decorative scheme that enhances the upholstery quality of the armchair by knowingly combining different materials to create a structural decoration.

Mee

Mee è la classica poltroncina operativa da ufficio, progettata per offrire il massimo del comfort per un utilizzo quotidiano e duraturo. Il movimento sincronizzato del meccanismo abbinato allo schienale rivestito in rete e dotato di poggiatesta regolabile assicura una corretta postura, infatti l'intensità del movimento soddisfa la maggior parte delle persone di peso compreso fra i 50 e i 120 kg.
La serie Mee è certificata EN1335.

Mee is the classic office chair, designed to offer maximum comfort for everyday and long-lasting use. The synchronized movement of the mechanism combined with the back covered in mesh and equipped with adjustable backrest ensures correct posture, in fact the intensity of the movement satisfies the majority of people weighing between 50 and 120 kg.
The Mee series is certified EN1335.

Il rivestimento del sedile è sfoderabile per permettere la sostituzione o il lavaggio.

The seat upholstery is removable to allow replacement or washing.

Il meccanismo può essere sincro, oppure sincro con slide (Optional "S").

The mechanism can be synchro or slide synchro ("S" Optional).

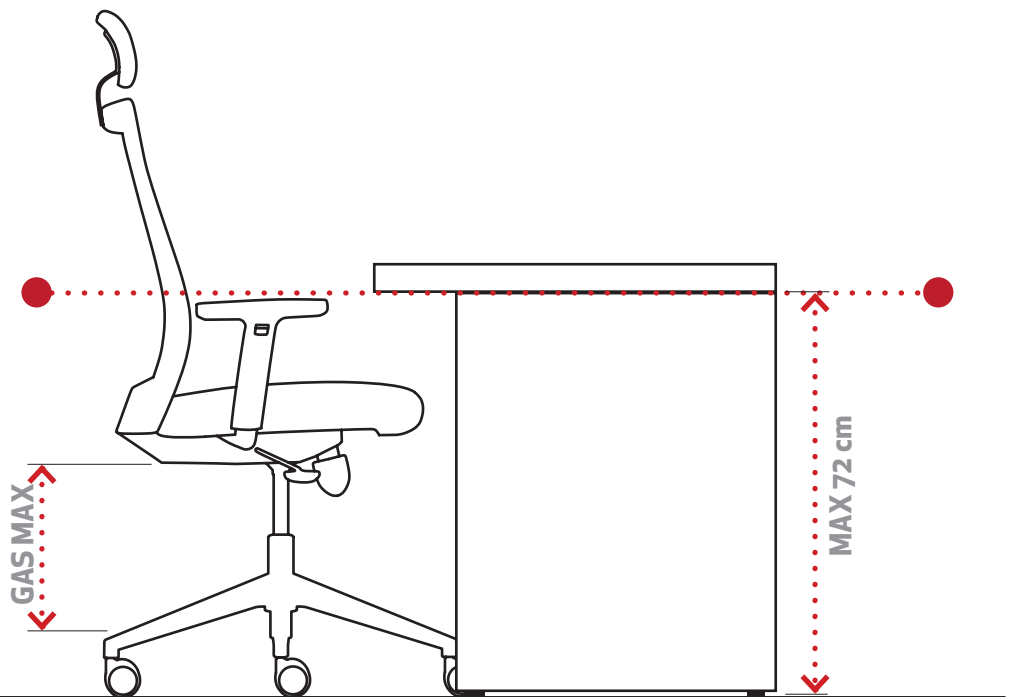

EASY-DESK system

technical info

Optional EASY-DESK per l'inserimento sotto scrivania (max 72cm) anche con gas al massimo e bracciolo completamente abbassato.

Optional EASY-DESK for insertion under the desk (max 72cm) even with gas at maximum and armrest fully lowered.

Meeting

Il design e le proporzioni ne fanno una poltroncina versatile, utilizzabile sia come postazione operativa, tavolo riunioni o smart working. Inoltre lo schienale in rete traspirante e il sedile con le cover colorate in versione sfoderabile garantiscono una facile pulizia anche negli ambienti con elevato utilizzo.

The design and proportions make Meeting a versatile armchair, which can be used both as an operative station, meeting table or smart working. In addition, the back in breathable mesh and the seat with colored covers in the removable version guarantee easy cleaning even in environments with high use.

Trim

La forma ergonomica dello schienale appositamente disegnato sostiene delicatamente la zona pelvica riducendo la rotazione del bacino e della colonna vertebrale. La forma della postura è stata progettata per offrire all'utente un benefico supporto lungo la spina dorsale e nella zona lombare con una maggior distribuzione omogenea del peso. L'angolo frontale della seduta riduce o annulla la pressione e i problemi di circolazione sanguinea delle cosce.

With its ergonomically designed back shape it gently supports the pelvic girdle and reduces the tendency of the pelvis to rotate backwards when the user sits down. The shape of the posture seat has been designed to encourage the user to take advantage of the special back, in addition to providing superior support characteristics for even weight distribution. A distinct waterfall front-edge profile to the contoured posture seat reduces the pressure under the thighs.

Pepita lounge

La seduta Pepita è caratterizzata dalla dinamicità delle curve, linee fluide ed avvolgenti, che contraddistinguono l'intera seduta. La particolare forma della scocca, l'inclinazione e l'altezza della seduta sono state pensate per centrare perfettamente il concetto di "Smart Lounge". la base è disponibile in 3 versioni, con slitta in tondino di acciaio cromato o verniciato nero, oppure con base a tromba con colonna girevole e sistema autoallineante, infine un trespolo a 4 gambe in legno di faggio con finitura naturale o Wengè.

The Pepita seat is characterized by the dynamism of curves, flowing and enveloping lines, which characterize the entire chair. The particular shape of the body, the inclination and the height of the seat have been designed to perfectly center the concept of "Smart Lounge". the base is available in 3 versions, with a sled base in chromium-plated or black-painted steel, or with a horn base with a revolving column and self-aligning system, and finally a 4-legged beechwood stand with a natural or Wengè finish.

Un pensiero lineare, un approccio tecnico deciso e onesto, servono a ripensare la sfera, la più pura delle geometrie. Queste, sono le basi di un design classico e allo stesso tempo non convenzionale. Dentro o fuori casa.

We used a linear design and a determined, honest technical approach to reevaluate the sphere, the purest geometry. These are the bases for a classic design, which is, at the same time, also unconventional. Inside or outside house.

Pepita table

design Manuel Pampani

La ricerca di essenzialità passa attraverso un processo di "minimal wireframing" della semisfera che personalizza lo spazio senza snaturarlo, avvalendosi di una struttura architettonica aerea e di uno stile grafico inconfondibilmente classico.

The search for simplicity goes through a process of "minimal wireframing" of the hemisphere that personalizes the space without distorting it, using an aerial architectural structure and, unmistakably, a classic graphic style.

Papery table

Tavolino disponibile in 3 dimensioni con gambe in legno e piani in nobilitato, la linea leggera e morbida del piano sembra far galleggiare il tavolo come carta sorretta solo dalla struttura delle gambe. Le colorazioni dei piani in grigio ciottolo o cashmere abbinata alle gambe in faggio naturale o colorazione wengé, completano e rafforzano la versatilità del prodotto.

Coffee table available in 3 sizes with wooden legs and melamine tops, the light and soft line of the floor seems to float the table as a paper supported only by legs structure. The colors gray pebble or cashmere matched with natural beech legs or wengé color, complete and confirm the versatility of the product.

Was

Was è versatile, i sistemi modulari imbottiti sono composti da poltrona e divani a due e tre posti, sono facilmente abbinabili ai tavoli quadrati o rettangolari con piano in vetro o in legno.

Was is versatile, its modular upholstered systems are composed of armchair and sofas 2 and 3 seater and are perfectly matched with square and rectangular tables with either wooden or glass tops.

Classico contemporaneo.

L'effetto in rilievo sulle sedute, l'acciaio cromato delle gambe ed il rigoroso design presentano un'immagine di eleganza senza tempo.

Equilibrato nelle dimensioni e comodo nelle forme si presta per creare confortevoli zone d'attesa in uffici, showrooms e negozi.

A contemporary classic.

Embossed seating, chromed steel legs and a rigorous design represent a timeless elegance.

Balanced dimensions and comfort in seating it allows this product to be used at home, in showrooms, waiting rooms and shops.

3D PRINTED INSERT

RECYCLED MATERIAL STRUCTURE

SoundCircles

Sound Circle è un elemento modulare illuminante che aiuta a migliorare il comfort acustico. Le linee pulite e le molteplici possibilità di configurazione consentono di creare differenti soluzioni per piccoli e grandi ambienti. Sound circle è pensato per essere completamente sfoderabile e lavabile.

Uno dei temi fondamentali di questo prodotto è la scomponibilità totale sia in uso che a "fine vita". Abbiamo deciso di utilizzare ABS riciclato al 100% per lo sviluppo della scocca interna. Il sottile materiale plastico della struttura accoppiato con l'imbottitura in fibra, lo rendono leggero e estremamente eterogeneo. Adatto a differenti ambiti di arredamento, dall'ufficio al contract, fino ad abbracciare l'ambiente casa.

Sound Circle is a modular lighting element that helps improve acoustic comfort. The clean lines and the multiple configuration possibilities allow you to create different solutions for small and large environments. Sound circle is designed to be completely removable and washable.

One of the fundamental themes of this product is the total decomposition both in use and at "end of life". We decided to use 100% recycled ABS for the development of the inner shell. The thin plastic material of the structure coupled with the fiber padding, make it light and extremely heterogeneous. Suitable for different furnishing areas, from office to contract, up to embracing the home environment.
